# Index to Volume XX

This Index incorporates entries for the Thyroid Gland and Transplantation Symposia published as supplementary issues during 1967 but paginated as pp. 309-554 of this volume; the abbreviations '*(Thyr.)*' and '*(Transpl.)*' have been used to distinguish between the preliminary pages of these Symposia.

*Other abbreviations:*—'(P)' refers to the summaries of papers read at the General Meetings of the Association of Clinical Pathologists. '(L)' refers to letters to the Editor.

ABELSON, D. M. *See* KENNEDY, J. A., and ABELSON, D. M.
ACLAND, J. D., and LIPTON, S.: Precision in a clinical chemistry laboratory, **780**
Actinomycin and transplantation, **489, 518**
Activation analysis (P), **106**
— —, neutron, for copper in Wilson's disease (P), **108**
— —, —, for tissue copper determination, **276**
Adenocarcinoma of pyloric antrum with squamous differentiation, **136**
Adenomas, adrenal cortical, and normokalaemic primary aldosteronism, **49**
Adenosine diphosphate in measurement of platelet adhesiveness, **706**
Adenovirus infection, fatal, of respiratory tract in young children, histopathology of, **561**
ADINOLFI, M., GARDNER, B., and MARTIN, W.: Observations on the levels of γG, γA, and γM globulins, anti-A and anti-B agglutinins and antibodies to *Escherichia coli* in Down's anomaly, **860**
Adrenal cortex and regulation of intestinal alkaline phosphatase levels in rat, **185**
— cortical adenomas and normokalaemic primary aldosteronism, **49**
Adrenaline, fibrinolytic response of diabetics and non-diabetics to, **231**
Aerococcus-like organisms isolated from human infections, **294**
Age, effect on fibrinolytic activity, **223**
—, skeletal, ossification in sternum as measure of, **589**
Agglutinins, anti-A and anti-B, levels in Down's anomaly, **860**
Aldosteronism, normokalaemic primary, and adrenal cortical adenomas, **49**
ALEXANDER, M. K., and PRIOR, A. P.: Data processing in a clinical laboratory (P), **676**
Alkaline phosphatase in serum, elevation in bone and liver disease, mechanism of, **654**
— — — —, origins of, **647**; *erratum*, **794**
— — levels, intestinal, adrenal cortex and regulation of, in rat, **185**
— —, neutrophil, in pregnancy, **749**
ALLENSWORTH, J. L. *See* HUNTER, D. T., and ALLENSWORTH, J. L.
Allogeneic inhibition, xi (*Transpl.*), **441**
Allograft rejection, xi (*Transpl.*)
— — in treated kidney grafts, **518**
Allografts and immunosuppressive agents, **471**
—, immunological enhancement in, **444**
—, liver, pathology of, in pig (P), **919**
—, reaction to antilymphocytic serum, **467**
—, renal. *See* Renal allografts
—, skin, rejection of, effect of ribonucleases, **501**
AL-NOURI, L. *See* TAJ-ELDIN, S., AL-NOURI, L., and FAKRI, O.
Amino acids, urinary excretion in leukaemia, **70**
Ammonia in blood, estimation of, and its application in clinical diagnosis (P), **921**
Amoebiasis, **114**
—, serological diagnosis by immunofluorescence, **875**
Amoeboma, **115**
AMOS, H. E. *See* GEARY, C. G., AMOS, H. E., and MACIVER, J. E.
Amyloid, non-systemic microdeposits of, incidence and origin, **15**
Anaemia, megaloblastic, erythroblast crisis as indicator of response to therapy in, (P), **918**
—, —, post-infective ischaemia of bone marrow in (P), **673**
—, unsuspected, and population screening (P), **673**
Anal canal, basaloid carcinoma of, **128**
Antibiotics, automatic serial dilution apparatus for determination of, **770**
— in appendicitis and peritonitis (P), **921**
—, pre-medication with, effects on bacteraemia after dental extraction (L), **304**
—, resistance of *Staphylococcus aureus* to (P), **921**
—, suppression of pregnancy bacteriuria by (P), **675**
—, transferable resistance of *Esch. coli* to, in hospital (P), **919**
Antibodies, cell-bound, and macrophages, in hypersensitivity, **433**
Antibody, antilymphocytic, nature of, **468**
— production, effect of antilymphocytic serum, **467**
Antigens and antibodies, thyroid, **385**
—. *See also* Histocompatibility antigens, Leucocyte antigens, Transplantation antigens
Anti-haemophilic globulin concentrates, clinical use (P), **104**
— — — in treatment of von Willebrand's disease (P), **919**
Antilymphocytic antibody, nature of, **468**
— serum, action *in vivo*, **468**
— —, allograft reaction to, **467**
— — and draining lymph nodes, **426, 456, 460**
— —, clinical applications of, **469**
— —, effect of other immunosuppressive agents, **467**
— —, effect on antibody production, **467**
— —, effect on hypersensitivity reactions, **467**
— —, effect on inflammatory response, **490**
— —, effect on lymphocytes *in vitro*, **468**
— —, immunological properties of, **466**
— — in renal allografts, xi (*Transpl.*), **518**
— —, xenograft reaction to, **467**
Antimetabolites as immunosuppressive agents, **473, 477**
Antithromboplastic and thromboplastic activities of fatty acids, **624**
Appendicitis, bacteria in, antibiotic activity of (P), **921**
Argentaffin cells in tumours of large intestine, incidence and significance of (P), **676; 829**
Arthritis, rheumatoid, with phenylbutazone-induced thrombotic microangiopathy (P), **919**
Asbestos bodies in lungs at necropsy, **570**
—, detection in tissue (P), **674**
ASHTON, W. L. *See* SHAW, S., PEGRUM, G. D., WOLFF, S. E., and ASHTON, W. L.
Aspergillosis, pulmonary, laboratory tests in, significance and interpretation, **832**
Association of Clinical Biochemists: Joint Meeting with A.C.P., **103**
— — — —: Reports and Bulletins, **79, 208, 266, 677, 769, 882**
Association of Clinical Pathologists: 77th General Meeting, **103**
— — — —: 78th General Meeting, **673**
— — — —: 79th General Meeting, **918**
— — — —: Resolutions on exfoliative cytology, **305**
— — — —: Symposium on the Thyroid Gland (1967), **309–414**
Atomic absorption spectrophotometry, estimation of calcium and magnesium in serum and urine by, **280**
AutoAnalyzer, cyanmethaemoglobinometry on, **671**
Autoantibodies reacting with heart muscle tissue in coronary heart disease, **161**
Autofluorescence of bone tissue, **717**
Auto-immune thyroiditis, **378, 385**
Automatic serial dilution apparatus for bacteriological laboratories, **770**
AYLIFFE, G. A. J., and COLLINS, B. J.: Wound infections acquired from a disperser of an unusual strain of *Staphylococcus aureus*, **195**
Azaserine and transplantation, **473, 477**
Azathioprine and transplantation, xi (*Transpl.*), **471, 472, 491, 518**
AZZOPARDI, J. G., and ZAYID, I.: Synthetic progestagen-oestrogen therapy and uterine changes, **731**

BAAR, S.: Osmotic resistance of heat-damaged erythrocytes, **239**
Bacteraemia after dental extraction, effects of antibiotic pre-medication (L), **304**
Bacteria in appendicitis and peritonitis, antibiotic activity of (P), **921**
Bacteriological data, punch card method for recording of (P), **103**
— laboratory, automatic serial dilution apparatus for, **770**
Bacteriuria, antibiotic suppression of, in pregnancy (P), **675**
—, triphenyl tetrazolium chloride test for, use of solid reagent in, **767**
BAIRD, J. D., BLACK, M. W., and FAULKNER, D. E.: Semi-automated method for the determination of free fatty acids in plasma, **905**
BARBER, K. G. *See* GILLESPIE, W. A., and BARBER, K. G.
BARDHAN, K. D., WANGEL, A. G., and CALLENDER, S. T.: A comparison of two methods for the immunoassay of intrinsic factor, **693**
Barium sulphate as continuous marker for faeces, **216**
BARKHAN, P. *See* RAVEN, J. L., WALKER, P. L., and BARKHAN, P.
BARRIE, J. D.: Use of thiosemicarbazone and para-nitrobenzoic acid in screening tests for anonymous mycobacteria, **86**
Basal metabolic rate, and thyroid function, **367, 377**
Basaloid carcinoma of anal canal, **128**

BATCHELOR, E. L. *See* BLACK, W. A., POLLOCK, A., and BATCHELOR, E. L.

Batchelor, J. R., xiii (*Transpl.*)

BATCHELOR, J. R., and CHAPMAN, B. A.: Genetic background and transplantation antigens, **415**

BAYLISS, R. I. S.: Stimulation and suppression tests of thyroid function, **360**

BEAL, R. W., READ, W. M. F., and TURVEY, P. A.: Neutrophil alkaline phosphatase in pregnancy, **749**

BECROFT, D. M. O.: Histopathology of fatal adenovirus infection of the respiratory tract in young children, **561**

BELL, T. K.: Gel scintillation counting of $I^{131}$ in plasma at high efficiencies, **629**

BENNETT, P. N.: Postoperative changes in platelet adhesiveness, **708**

BÉRAUD, T. LEMARCHAND-. *See* LEMARCHAND-BÉRAUD, T.

Berenbaum, M. C., xiii (*Transpl.*)

BERENBAUM, M. C.: Immunosuppressive agents and allogeneic transplantation, **471**

BERRY, C. L.: Myocardial ischaemia in infancy and childhood, **38**

BEUTNER, E. H. *See* JOHNSON, G. D., BEUTNER, E. H., and HOLBOROW, E. J.

BEW, F. E. *See* DIKE, G. W. R., and BEW, F. E.

Bilirubin levels of liquor amnii in normal pregnancy (P), **108**

BLACK, M. W. *See* BAIRD, J. D., BLACK, M. W., and FAULKNER, D. E.

BLACK, W. A., POLLOCK, A., and BATCHELOR, E. L.: Fatal transfusion reaction due to *Serratia marcescens*, **883**

BLAINEY, J. D. *See* HARRISON, J. F., and BLAINEY, J. D.

Blood ammonia estimation and its application in clinical diagnosis (P), **921**

— clot lysis, effect of diluents on, **234**; (L), **672**

— — —, multichannel system for automatic recording of, **209**

—, isolation of tumour cells from, comparison of methods, **145**

— lipid levels in progressive partial lipodystrophy, **52**

— oxalic acid levels in oxalate poisoning (P), **109**

— platelets, adhesiveness of, adenosine diphosphate in measurement of, **706**

— —, — —, in diabetes mellitus, **845**

— —, — —, measurement of, using celite, glass and ADP, **65**

— —, — —, postoperative changes in, **708**

— —, — —, results of glass bead filter tests, **710**

— —, aggregation in glomerular capillaries during graft rejection, **525**

— —, automatic counting with Coulter particle counter, **777**

— —, interactions with glass, normal and in von Willebrand's disease, **56**

—, protein-bound iodine in, glove box system for microdetermination of, in children, **302**

— samples for N.E.F.A. estimation, collection and handling of, **665**

— transfusion reaction, fatal, due to *Serratia marcescens*, **883**

—, TSH in, radioimmunoassay of, **333**

—, uterine arterial and venous, fibrinolytic components of, **227**

Blood-group incompatibility in renal allografts, **518**

BLOOM, A. L., and DAVIES, A. J.: Adenosine diphosphate and the measurement of platelet adhesiveness, **706**

BOGGUST, W. A. *See* FULLERTON, W. W., BOGGUST, W. A., and O'MEARA, R. A. Q.

Bone disease, elevation of serum alkaline phosphatase in, mechanism of, **654**

— grafts, **540**

— —, bone induction by, **547**

— —, choice of, **548**

— —, immune reactions in, **540**

— —, mechanical uses of, **548**

— —, non-clinical applications of, **549**

— —, osteoconductive property of, **545**

— marrow. *See* Marrow

— tissues, autofluorescence of, **717**

BOYLE, J. A. *See* RIFKIND, B. M., and BOYLE, J. A.

Breast, carcinoma of, and hormonal control of tryptophan metabolism (P), **109**

—, chromoblastomycosis of, (due to Cladosporium?) in English woman, **124**

— milk intoxication and subacute necrotizing encephalomyelopathy, **36**

BRENNAN, J. L.: Case of extensive necrosis of the oesophageal mucosa following hypothermia, **581**

BRIDGES, J. M. *See* LEE, M. B., NEILL, D. W., and BRIDGES, J. M.

Broadsheets, **111**

Bromide in urine, colorimetric method for determination of, **300**

BROOKS, C. J. W.: Combined gas chromatography and mass spectrometry applied to biological materials (P), **106**

BROUGHTON, P. M. G., and RILEY, C.: Colorimeters: what the average user wants (P), **107**

BROWN, D. L., and HARDISTY, R. M.: Preparation of A.H.G. (factor VIII) concentrates by the cryoprecipitate method and their clinical use (P), **104**

BROWN-GRANT, K.: The control of thyroid secretion, **327**

*Brucella abortus*, biotype 5, infection with, diagnosis and treatment of, **199**

Brucellosis, human, histological findings in, **267**

Bruning, J. W., xiii (*Transpl.*)

BRUNING, J. W. *See* ROOD, J. J. VAN, LEEUWEN, A. VAN, and BRUNING, J. W.

BRYANT, S. J.: Hyaline droplet formation in the renal epithelium of patients with haemoglobinuria, **854**

BUCHT, H. *See* LINDBERG, A. A., BUCHT, H., and KALLINGS, L. O.

BUCK, A. C.: Incidence of the fimbriate phase amongst *Escherichia coli* isolated from urinary infections, **84**

Burkitt's tumour and lymphosarcomata with 'starry sky' appearance in Britain, **578**
BYWATER, F. J. *See* MORRIS, T. K., and BYWATER, F. J.

CAEN, J. P. *See* MEYER, D., LARRIEU, M. J., MAROTEAUX, P., and CAEN, J. P.
Calcium and oxalic acid, plasma levels, in oxalate poisoning, **283**
— in serum and urine, estimation by atomic absorption spectrophotometry, **280**
CALLENDER, S. T. *See* BARDHAN, K. D., WANGEL, A. G., and CALLENDER, S. T.
CAMERON, C. B.: Radioactive isotopes in organ scanning (P), **921**
Cameron, Gordon Roy (*Obituary*), **5**
Candida in faeces of children receiving oral tetracycline and phenoxymethyl penicillin, **80**
Capreomycin (L), **219**
Carcinoma, of anal canal, basaloid, **128**
— of breast and hormonal control of tryptophan metabolism (P), **109**
— of cervix uteri *in situ*, squamous differentiation in, **7**
— of prostate, metastatic, suppression of systemic fibrinolysis by heparin in, **152**
—, of thyroid, medullary, **395**
Cardiac valvular disease, red cell abnormalities in, **848**
Cartilage, antigenicity of, **514**
—, immunological privilege in allografts, **513**
—, matrix, role in immunological protection, **515**
—, storage in viable state, **515**
—, structure and function, **513**
—, transplantation of, **513**
—, — —, scope of, **515**
CASEMORE, D. P.: Gentamicin as a bactericidal agent in virological tissue cultures, **298**
CASH, J. D. *See* MACKAY, A. V. P., DAS, P. C., MYERSCOUGH, P. R., and CASH, J. D.
—, and LEASK, E.: Multichannel system for the automatic recording of clot lysis, **234**
Celite in measurement of platelet adhesiveness, **65**
Cell-mediated immunity *See* Hypersensitivity, delayed
Cells, effects of immunosuppressive agents, damage leading to infection, **487**
—, — — — —, death relative to dosage, **483**
—, — — — —, metabolic death, **480**
—, — — — —, reproductive death, **480**
—, — — — —, structural disorganization, **479**
Cellulose acetate, zone electrophoresis on, **348**
Cephaloridine, hyaline cast formation in patients treated with, **857**
Cervical cytology and population screening (L), **218**
— Smear Analyser and Reader for evaluation of cells in cytological preparations (P), **105**; **724**
Cervix uteri *in situ*, squamous differentiation in, **7**
CESAR *See* Cervical Smear Analyser and Reader
Chalmers, J., xiii (*Transpl.*)
CHALMERS, J.: Bone transplantation, **540**
CHAMBERLAIN, J. H. *See* LIS, M. T., and CHAMBERLAIN, J. H.
CHAPMAN, B. A. *See* BATCHELOR, J. R., and CHAPMAN, B. A.
Chastek paralysis and subacute necrotizing paralysis, **37**
Chemistry, clinical, precision in laboratory methods in, **780**
Chemodectoma of lung, **260**
Cholesterol in serum, and thyroid function, **366**
CHONG, G. C., and OWEN, J. A.: Determination of methaemalbumin in plasma, **211**
CHRISTIE, A. C.: The parathyroid oxyphil cells, **591**
Christmas disease, partial thromboplastin time test with kaolin in, **616**
Chromatography, gas, and mass spectrometry combined, for biological materials (P), **106**
—, Sephadex column, in assessment of thyroid status, **170**
Chromoblastomycosis of breast (due to Cladosporium?) in English woman, **124**
Cirrhotic livers, vasculature of, injection studies (P), **105**
Cladosporium, chromoblastomycosis of breast possibly due to, in English woman, **124**
CLARK, F.: The estimation of thyroid hormone binding by plasma proteins and of unbound levels of thyroxine in plasma, **344**
CLARK, R. L., JONES, J. H., and JONES, J. F.: Screening lead workers for the presence of stippled erythrocytes, **166**
CLARK, S. P. *See* LIDWELL, O. M., TAYLOR, C. E. D., CLARK, S. P., and HEIMER, G. V.
CLARKE, J. A. *See* SALSBURY, A. J., and CLARKE, J. A.
Cloxacillin, resistance to, among hospital staphylococci, **870**
Coagulation screening, activated recalcification test for, **244**
Cold exposure, effect on thyroid secretion, **329**
COLE, F. M., and JONES, A. W.: Odontogenic tumour of lip, **585**
COLEMAN, P. N.: Measurement of red cell diameter by image shearing, **915**
Colicine production, typing by, importance of potency in, **887**
Colitis, ischaemic, case studies of (P), **676**
College of Pathologists: Tissue and Organ Transplantation Symposium (1967), **415**-**554**
COLLINS, B. J. *See* AYLIFFE, G. A. J., and COLLINS, B. J.
COLMAN, G.: Aerococcus-like organisms isolated from human infections, **294**
Colorimeters, users' requirements for (P), **107**
Colorimetric method for determination of bromide in urine, **300**
Complement levels, effect of immunosuppressive agents, **490**
Congress of Clinical Pathology, 6th International, Extracts from Presidential Address, **3**
Conn's syndrome, renal mastocytosis in (L), **672**
Contraceptives, intra-uterine *See* Intrauterine contraceptive devices
—, oral, effect on vaginal microflora and fauna (P), **103**; **636**
—, —, haemoglobin concentration, P.C.V., and M.C.H.C. in women taking (P), **918**
CONTRACTOR, S. F.: Use of Sephadex G-10 for the chromatographic investigation and estimation of 5-hydroxyindoles in human urine (P), **107**
Copper in tissues, determination by neutron activation analysis, **276**
—, neutron activation analysis for, in Wilson's disease (P), **108**
Coronary heart disease, autoantibodies reacting with heart muscle tissue in, **161**
Corrections, **96**, **211**, **794**
Corticosteroids and transplantation, **479**, **488**, **489**, **490**
Cot deaths, unexplained (P), **920**
Coulter particle counter, automatic platelet counting with, **777**
— plotter model J, red cell volume distribution histograms for establishing normal range using, **913**
COX, P. E. *See* TURNER, G. C., and COX, P. E.
CRAINE, K., and WAFT, A. D.: Red cell volume distribution histograms for establishing the normal range using the Coulter plotter model J, **913**
CRAMP, D. G.: New automated method for measuring glucose by glucose oxidase, **910**
CRAWFORD, T.: Recognition of training laboratories (L), **305**
Creatine phosphokinase in serum, and thyroid function, **366**
CRICHTON, W. B. *See* GORDON, A. M., DICK, H. M., MASON, D. K., MANDERSON, W., and CRICHTON, W. B.
CROOKS, J.: The diagnosis of hyperthyroidism, **373**
Cryoglobulin A.H.G. concentrate, Pool's, preparation and clinical use (P), **104**
— — —, —, treatment of von Willebrand's disease with (P), **919**
Cryostat sections, tangential, of intestine in diagnosis of Hirschsprung's disease, **263**
CUNLIFFE, A. C. *See* DAVIDSON, W. M., and CUNLIFFE, A. C.
CURNOW, D. H. *See* DUNLOP, M., and CURNOW, D. H.
Cyanmethaemoglobinometry on AutoAnalyzer, **671**
Cyanocobalamin *See* Vitamin $B_{12}$
Cyclophosphamide and transplantation, **426**, **491**
Cytological preparations, evaluation of cells by CESAR (P), **105**; **724**
Cytology, exfoliative, A.C.P. resolutions on, **305**
—, —, vaginal, implications and policy (P), **105**

DADSWELL, J. V.: Survey of the incidence of tetracycline-resistant haemolytic streptococci between 1958 and 1965, **641**
DAS, P. C. *See* MACKAY, A. V. P., DAS, P. C., MYERSCOUGH, P. R., and CASH, J. D.
